## Experience

### SOFTWARE ENGINEER @ AIRBNB

August 2019 - November 2020

I created, reviewed, and collaborated on technical specs for various products and features. While delivering these features, I also worked with team members on establishing, refining, and measuring the success of our product engineering process.

- ✓ Increased accuracy of client feed generated listings by building a suite of apps for internal ops team to onboard and manage multifamily properties.

REACT, TYPESCRIPT, GRAPHQL, STORYBOOK

- ✓ Enabled **10x** ops productivity by building a set of scripts to bulk onboard and edit multifamily properties.

RUBY, RAILS, SUPERSET, NODEJS

- ✓ Maintained and extended Java services to regularly download partner xml feeds and use them to generate and manage listings on the Airbnb platform

JAVA, KOTLIN, AMAZON S3, THRIFT, CLOUDWATCH

### MEMBER OF THE DLS PARTNERS WORKING GROUP

Helped support usage and contribution to Airbnb's standard UI Component system, while participating in feedback and ideation meetings with other partners and the DLS Team.

### FRONTEND ENGINEER @ URBANDOOOR

January 2019 - July 2019 (Acquired by Airbnb)

- ✓ Built new pages and tools using Rails and Vue within a Marketplace app that connected business travellers with temporary furnished apartments.

RUBY, RAILS, VUE

### FRONTEND ENGINEER @ COMCAST

December 2016 - January 2019

- ✓ Built a suite of React apps to replace the legacy My Account Web app. Maintained the legacy Angular app as well as a Ruby on Rails middleware.
- ✓ Worked with backend engineers to define the rest apis of a new serverless middleware to serve the new suite of apps.

REACT, ANGULAR, LERNA, RUBY ON RAILS

### SENIOR FRONTEND ENGINEER @ WEBMD

July 2015 - December 2016

- ✓ Built and maintained front end products for both the educational & promotional side of Medscape.com using Javascript, CSS, JSP, and React.
- ✓ Worked with UX team members to develop a proof of concept for converting Medscape homepages category pages, and article templates to a responsive design.
- ✓ Worked with Ad team to solve for pharmaceutical advertising legal restrictions around serving different size ads in a responsive environment.
